In re Application of

Gerd BRANDHORST et al.

Serial No. 09/368,505

Group Art Unit 3754

Filed: August 5, 1999

Examiner: Philippe DERAKSHENI

For: DEVICE FOR EMPTYING A FILM TUBE

SUPPLEMENTAL REISSUE DECLARATION

As a below named inventor, I hereby declare that my citizenship, postal address and residence are as stated below; that I verily believe I am the original, first and joint inventor of the invention entitled:

DEVICE FOR EMPTYING A FILM TUBE

the specification of which was filed on August 5, 1999, received serial No. 09/368,505, and includes original U.S. Patent No. 5,653,360, issued August 5, 1997.

I have reviewed and understand the contents of the above-identified Specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, § 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below:

by reason of the patentees claiming more or less than they had the right to claim in the patent.

At least one error upon which reissue is based is described as follows:

Original independent claims 1 and 4 of the patent recite that the housing is a "cylindrical" housing and "said housing having an inner diameter and including an end portion having a ring support surface, the cap having a dispensing opening, an

annular engaging portion surrounding the dispensing opening and cooperating with said ring for sealing the dispensing end of the tube, and a cylindrical end portion adapted to engage the end portion of the housing, said ring having a peripheral portion which exceeds the inner diameter of the housing for engaging said ring supporting surface ..."

These recitations render the original patent wholly or partly inoperative by reason of the patentee claiming less than what the patentee was entitled to as patentee is entitled to broader claims not including the limitations set forth in these recitations.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

I hereby claim foreign priority benefits under Title 35, United States Code §119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:
